

## Have You a Bad Back?

Does your back ache night and day making work a burden and rest impossible? Do you suffer stabbing, darting pains when stooping or lifting? Most bad backs are due to hidden troubles in the kidneys and if the kidneys are weak or too frequent of passage, proof of kidney trouble is complete. Delay may pave the way to serious kidney ills. For bad backs and weak kidneys use Doan's Kidney Pills—recommended the world over.

## A LOUISIANA CASE

Harry Keating, 304 S. Burgundy St., New Orleans, La., writes: "I was so bad with kidney trouble that I was almost despondent of ever being cured. The pains through my back were terrible and mornings were stiff and aching. I tried many remedies but nothing helped. Doan's Kidney Pills went to the root of the trouble and cured me in a month."

## Not Quite Insolvent.

Abraham Lincoln Carter appeared before the bar of justice in Staunton, Va., charged with stealing \$7.50. Evidence was strong against him, but the young lawyer appointed by the judge to defend the prisoner put up a strong plea and Abraham was acquitted.

A little later counsel and client met outside the court house. "I worked hard for you this morning, Abraham," said the lawyer, "and the court pays me very little. There is a big world pile out behind my house and you had better work on it two or three days and pay your part."

"Money? Where will you get any money, you rascal?"

"Well, boss, I reckon I still got dat \$7.50."

## Opinion Poorly Expressed.

Papa was enlarging on his last summer's trip abroad. He was saying: "Oh, yes, Italy is a great place."

"How about the fleas?" asked his listener.

"Everybody there complained about them, but I did not have one bother me."

Johnny quietly looked up from his book and said: "You're a lucky dog, father, a very lucky dog."

## A Woman's Message

Womb or ovarian trouble, painful periods, whitish discharges, bearing down feeling, pains in the back, hips and sides, hot flashes, nervousness, dizziness, palpitation, headaches, constipation, indigestion, "blues" and melancholy.

These are some of the more familiar symptoms of women's diseases. They all mean danger, they indicate unnatural conditions and warn you that help is needed.

STELLA-VITAE will supply that needed help, will assist nature in restoring you to perfect health and the happiness that comes of a sound body without aches or pains.

Mrs. Sallie Holton, of Bartow, Ga., says: "I suffered four years with female diseases before I tried STELLA-VITAE. Had two good doctors treat me, but would improve for a little while only. I tried STELLA-VITAE and words cannot express how thankful I am that I tried it. STELLA-VITAE cured me."

We want you to try STELLA-VITAE, and to induce you to do so we make this positive guarantee—try one bottle, and if that one bottle does not benefit you we authorize your dealer to give you money back.

Whatever risk there is we take it; you cannot lose a penny!

After you know what STELLA-VITAE will do for you, you may buy six bottles for \$5.00 and keep on using until you are restored to robust health.

## HAPPINESS FOR THE AGED

Many Ways by Which Those About Them May Bring Pleasure Into Their Lives.

A medical authority is of the opinion that the aged should receive from the physician and from the humanitarian a sympathy and support that will help and cheer them. The old man should be induced to improve his appearance. His sense of pride should be stimulated. Those around him should, without too great a departure from actual truth, tell him how young he looks. An effort should be made to keep his mind pleasantly engaged, which engages the attention of the community, on the aged who are roused to a stronger interest in current affairs is often quite salutary. They thus have something to think about, to talk about. They are taken away from the past and again are in the living present. The aged woman rarely becomes as gloomy and depressed as the old man. She has a place in the activities of the household which can never be a part of a man's life. When through age a man's occupation is gone, it is difficult for him to adjust himself to the idleness that follows and to make that leisure a source of happiness rather than of unavailing regret.

## SKIN TORTURES WILL YIELD TO RESINOL

If you have eczema, ringworm, or other itching, burning, unsightly skin eruptions, try Resinol ointment and Resinol soap and see how quickly the itching stops and the trouble disappears, even in the severest, stubborn cases. Resinol ointment is also a wonderful household remedy for pimples, dandruff, sores, burns, wounds, boils, piles, and for a score of other uses where a soothing, healing application is needed.

Resinol contains nothing of a harsh or injurious nature and can be used with perfect safety on the tenderest or most irritated surface. Every drug-gist sells Resinol ointment (50c and \$1), and Resinol soap (25c). Avoid worthless, harmful, imitations. Adv.

## HAD LETTERS ON THE ICE

Maid Meant Well, but She Misunderstood Instruction Given Her by Mistress.

Minnie, the new maid, admired her young mistress exceedingly, and was very willing to obey all her orders, however incomprehensible they might be to her.

"Minnie," said Mrs. Lane one morning, "I have just ordered some lettuce. When it comes I want you to put it in the icebox right next to the ice. Can you remember?"

"Oh, yes, meessis," replied Minnie, with seeming understanding, "my feet heem all gude."

Mrs. Lane was very popular socially and it was several days later when she realized that she had received no letters from home, nor, indeed, any other mail. She looked in the letter box, but found nothing there.

"Minnie," said Mrs. Lane, going to the kitchen, "have you taken any letters from the postman or out of the postbox yet?"

"Oh, yes, meessis," beamed Minnie, rushing to the ice box. "My bring heem for you. My do like you told me the other day, meessis."—National Monthly.

"No, he won't!" was the dogged answer. "When I say 'No,' I mean it!"

## CANADA'S TELESCOPE

Canadian Government Soon to Have Powerful Instrument.

Referred to as "The Largest Telescope in the World" and Will Cost Nearly \$100,000—Its Location Not Yet Determined.

Ottawa, Can.—The Canadian government will soon possess a more powerful reflecting telescope than any now in existence. It has been referred to in the newspapers as "the largest telescope in the world," but this description is misleading for two reasons: first, because its aperture, 72 inches, is to be the same as that of the famous Parsonstown reflector, built by Lord Rosse in 1842; and second, because by the time the Canadian instrument is completed it now seems likely that the 100-inch reflector which has long been under construction for the Mount Wilson Solar observatory will also be ready for use. The Canadian telescope will, however, be a much more efficient instrument than Lord Rosse's. Not only will the mirror be much superior, but the mounting will enable the telescope to be worked to the full advantage. The Parsonstown reflector has an altazimuth, not an equatorial, mounting and is operated under such difficulties that comparatively little use has ever been made of it.

Contracts for the new telescope have just been awarded to J. Brashar for the mirrors and other optical parts, and to Warner & Swasey for the mounting. The disk for the principal mirror will be made by the St. Gobain glass works, in Paris, but all the grinding and figuring will be done in this country. The total cost will be nearly one hundred thousand dollars. Inasmuch as the instrument is intended primarily and notoriously for work of a scientific nature, the use of the spectrographic measurement of radial stellar velocities, this sum represents a very notable contribution to pure science on the part of a government.

The telescope will have a parabolic mirror of 72 inches, clear aperture and 30 feet focal length, with a central hole ten inches in diameter. The mounting is to be similar to that of

Powerful Reflecting Telescope of the Canadian Government, 30 Feet Focal Length.

the Ann Arbor and Melbourne reflectors, with a skeleton tube at one side and nearly midway between the bearings of the lower polar axis, the balance being restored by the declination motion mechanism and by counterweights at the other side. Both polar and declination axis will be carried entirely on ball or roller bearings, in place of the usual plain bearings for collimating and a complicated system of counterweighted rollers for relieving the friction. The construction will also be simplified in other respects. e. g., all fine circles will be omitted, as will the slow motion in right ascension.

It is characteristic of twentieth century technique in astronomy that although the new telescope will have a full set of oculars for visual observations, no program of visual work is contemplated. Nowadays the camera takes the place of the human retina. The main purpose of the instrument will be the measurement of motion in the line of sight of stars fainter than the fifth magnitude; a task beyond the light-gathering power of nearly all existing telescopes. For such work the telescope generally is used in the Cassegrain form; the light from the main mirror, converging toward a focus, will be received by a second hyperboloidal mirror of about nineteen inches aperture and ten feet focus, placed about twenty-three feet above the main mirror. The light passes thence down through the hole in the main mirror, and the star images are formed about three feet below the latter. Here the spectrograph will be placed. For the fainter stars of low dispersion the spectrograph will probably be placed at the prime focus. An investigation of the atmospheric conditions in different parts of Canada is now in progress, to determine where the telescope will be located.

**NO MORE PET ANTS WANTED**

Department of Agriculture Appeals to Amateur Scientists to Taboo Like Imports.

Washington.—Those little pet ants recently brought to this country by Mrs. Charles W. Morse are made the basis of an appeal to travelers not to bring dangerous insects into the United States, issued by the department of agriculture.

"Tourists and amateur scientists are continually endeavoring to introduce additions to the flora and fauna of the United States which the United States is happy to be without," the department says.

"It is estimated that fully one-half of the pests that afflict farmers and stock have been imported from abroad, many, of course, by accident in the course of commercial shipments, but some brought in deliberately by misguided enthusiasts or thoughtless travelers."

## FEELS LIKE A NEW WOMAN

As Lydia E. Pinkham's Vegetable Compound Dispelled Backache, Headaches and Dizziness.

Piqua, Ohio.—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves, for I have taken it at different times and it always relieved me when other medicines failed, and when I had a severe case of organic weakness. I had backache, pains in my hips and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again and it has built me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—Mrs. ORPHEA TURNER, 431 S. Wayne St., Piqua, Ohio.

Women who are suffering from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Lydia E. Pinkham Medical Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by woman and held in strict confidence.

## SAVINGS BANK FOR SCHOOL

Pennies and Nickels Accepted by Teacher and Boy Officers of Savings Association.

Chicago.—More than one hundred children of the Wicker Park school proudly displayed "bankbooks." They are depositors of the first public school savings bank in Chicago.

At the start of banking hours—8:15 to 9 a. m. and 2:30 to 4:30 p. m.—a score of youngsters stood in line in order to deposit their marble and candy allowance in the care of their fellow pupils.

Thirteen-year-old Frank Koraleski, son of the county assessor, who has been appointed cashier, was kept busy taking the pennies, nickels and dimes

handed to him by the boys and girls of the seventh and eighth grades of the school. He has an errorless record at the present time after receiving more than one thousand pennies and hundreds of other coins.

"How much interest do I get?" asked Annie Globert, a twelve-year-old miss of the seventh grade, as she handed two nickels and fourteen pennies and told her name to Milton Pohler, the clerk.

"Same as any regular bank," was the answer. "When you get five dollars we put it into a big bank and you get 15 cents more at the end of the year."

Philip Simon, the best writer in the school, is signature clerk. He does not expect any forgeries, but he will be on the watch for them, anyhow.

Miss Clara M. Utter, teacher of the eighth grade, is in charge of the bank, assisted by Principal Fred Smith. The bank has received the approval of Mrs. Ella Flag Young, superintendent of schools, and is expected to be taken up by other schools in the city.

**MOORS SLAY TWO AIRMEN**

French Army Aviator and Aid Compelled to Land in Desert and Are Hacked to Pieces.

Rabat, Morocco.—Captain Harve, a French military aviator, and a lieutenant he was carrying as a passenger were hacked to death by insurgent Moors after they had escaped uninjured from an aeroplane accident in the desert.

The two officers were engaged in a reconnoitering flight near Zennour when their motor became disabled while they were high in the air. The captain piloted the machine in a gliding flight to earth.

Both alighted safely and were endeavoring to repair the defective motor when a band of Moors surrounded them, and after torturing them cut them up with swords and spears. The Moors also destroyed the aeroplane.

**QUEEN TO VISIT WHITE HOUSE**

Eleanora of Bulgaria May Be Guest of President Wilson and Wife in May.

Washington.—William Caspar, special envoy of Queen Eleanora of Bulgaria was here to arrange for the proposed visit of her majesty to the United States. She is coming to investigate methods of hospital administration and relief work of the poor and sick. Mr. Caspar planned to visit Secretary Bryan to consult him relative to the attitude of the state department toward the contemplated visit of the queen, how she will be received and entertained. He hoped to complete arrangements so that she can sail for this country May 10 or May 17. During her stay in Washington she may be a guest at the White House.

**LEOPARD ATTACKS TWO MEN**

Circus Animal Bites Trainer and Assistant When Doing Trick in Cage at St. Louis.

St. Louis.—Emil Schwyer, an animal trainer in a circus, was attacked and torn by a leopard while he was trying to get it to walk a rolling globe in a steel cage. The leopard tore from the trainer's left arm and shoulder. Tom Hilton, an assistant trainer, then tried to make the leopard do the trick when the animal leaped on him, bearing him to the floor. Circus attendants beat off the leopard before Hilton was hurt seriously.
